Follow the steps to make these

FIERY DRAGONS!

Step 1

Paint a wooden spoon and leave it to dry. Cut out an oval from some green foam for the mouth and flame shapes from yellow, orange and red.

Step 2

Cut out both wings as one whole piece of foam. Bend the wings around the spoon and attach them with glue.

Step 3

Stick on the flames and green oval shape to finish the mouth. Then pop on the googly eyes and draw some nostrils to finish!

Colour in the dragon below. You could draw on some scales or maybe you could add sequins!
