

I know how to...
make stuff!

Raid the recycling to
make this awesome
Maze Game!

Idea!

You and a friend could make a maze for each other to do!

Did you know...

In 2014, the world's largest corn maze was 60 acres in California. That's roughly the size of 40 football pitches!

You will need:

- an adult to help
- a shoe box lid or half of a cereal box
- plastic straws
- scissors
- pva glue
- pencil

Step 1:

Sketch out your maze with a pencil. Be sure to leave enough room for your ball to roll between them.

Step 2:

Please ask an adult to help you cut up the straws. Use pva glue to stick the straws along your pencil lines.

How to play:

When the glue has dried use a rolled up ball of foil and guide it through the maze, from start to finish!

*Please remember to recycle when you're finished!

Win a prize!

Send in a photo of your maze to iknow@redan.com for a chance to win a prize!
