

I know a...
recipe

Alien Smoothie!

Before you start, ask an adult to help you peel, cut and chop all the fruit.

You will need:
an adult helper
10 ice cubes
a blender
an apple
2 kiwis
half a banana
a yoghurt

1 Pop all the fruit into a bowl.

2 Add the yoghurt and the ice.

3 Ask your adult helper to blend all the ingredients together.

4 Pour into your favourite cup, pop in a paper straw and enjoy!

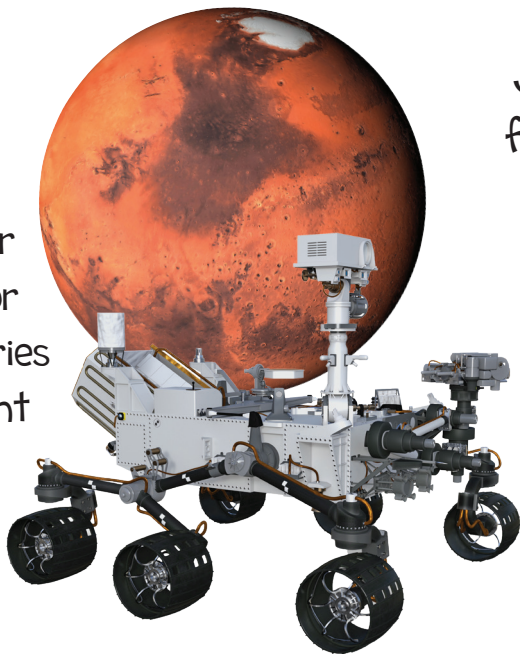

Tip!

To make your smoothie extra green add a few mint or even spinach leaves!

Is there alien life?

Mars

NASA's Mars Rover continues to look for life on Mars. Discoveries of methane gas might mean microscopic creatures can exist there.

Europa

Jupiter's moon has seas below its frozen surface. Perhaps life exists around volcanic vents like some of Earth's sea beds.

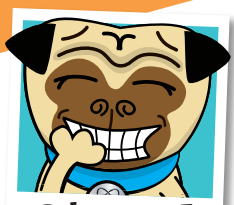

Enceladus

The water spouting from geysers on Saturn's moon was found to be salty and contain organic molecules, the basic ingredients for life!

Cut out and stick these funny alien faces on to your smoothie.

Cheese!

Dee lish!
