

Let's play a...  
**game!**

Ask an adult to cut out these pages along the black lines and glue on to card. Then cut out each card and share them equally between players.

**You will need:**  
child-safe scissors  
white card  
child-safe glue  
an adult helper

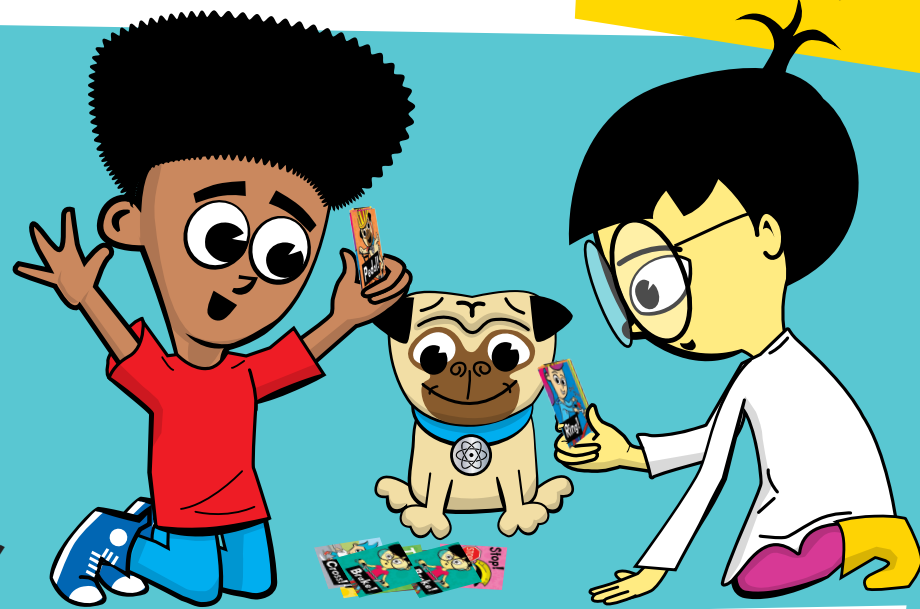

### How to play:

Hold your cards face down.

**Take turns** to place a card face-up to make a pile, until **two matching cards** go down.

The **first player** to shout 'snap' wins the cards in the pile.

The **winner** is the player left with **all the cards**.

The Green Cross Code was invented in 1970, by the National Road Safety Committee. It replaced The Kerb Drill.
