

# Make a Toadstool House

**You'll need:**

Trace over the dots and colour in the butterflies.

**1.** Make a cone shape out of the red card.

**2.** Cut a rectangle out of the card. Carefully cut out a small circle halfway along the bottom edge.

**3.** Roll into a tube and secure with tape. Stick the cone on top and then paint on some white dots.

**4.** Draw a window, door, flowers and some butterflies on a piece of paper. Cut them out and stick them on. Then add tissue paper grass around the edge.

Stick on a paper straw chimney.

Light up your toadstool house with an LED\* light!
